PROJECTS

- **MomEra — AI-Driven IVF Success Prediction** | Mobile Application
Technologies: React Native, Expo, XGBoost
 - Developed a healthcare-focused mobile application for IVF success prediction using machine learning workflows.
 - Participated in UI validation, workflow testing, and feature verification processes.
- **Smart Campus Service Request System** | Web-based System
Technologies: ReactJS, NodeJS, MongoDB
 - Developed a microservices-based platform for handling student and staff service requests.
 - Contributed to frontend/backend integration and workflow management features.
- **SkillHorizon — Skill Sharing Platform** | Web-based System
Technologies: ReactJS, Spring Boot, REST APIs
 - Developed a collaborative learning platform with profile management and REST API integration.
 - Participated in frontend validation and functional workflow testing.
- **My Finance Mate** | Web-based System
Technologies: ReactJS, NodeJS, MongoDB
 - Developed a finance management system for budgeting, savings tracking, and expense management.
 - Implemented responsive UI components and backend data workflows.
- **Wedding Planner System** | Web-based System
Technologies: Java, MySQL, HTML, CSS
 - Developed a web-based wedding planning and event management system.
 - Implemented customer booking workflows and data management functionalities.
- **Staff Management System** | Web-based System
Technologies: HTML, CSS, SQL, JavaScript, PHP
 - Developed a staff management system for employee record and workflow handling.
 - Implemented CRUD operations and responsive frontend interfaces.
- **Sai Photography Management System** | Web-based System
Technologies: ReactJS, NodeJS, ExpressJS, MongoDB, CSS
 - Developed a photography management platform for booking and portfolio management.
 - Integrated responsive frontend design with backend workflow functionalities.
- **Verb Master Challenge Game App** | Mobile Application
Technologies: Kotlin
 - Developed a mobile-based verb challenge learning game application.
 - Implemented interactive gameplay and educational quiz workflows.
